Story

Noritake traces its earliest international roots back to 1876, where its founders, the Morimura brothers, set up a general store in New York City, and a trading company in Tokyo, driven by a vision to enrich Japan through overseas trade. In 1897, a team of engineers venture to Europe to research the craft of creating white porcelain. Upon returning in 1899, a laboratory in Nagoya was launched setting the foundation for Noritake. Later in 1904, their dream was realized upon creation of a factory in Nagoya that established the Noritake Brand and began their leadership in the modernization and artistry of Japan's ceramic industry.

- **Avoid Metal Marks:** Do not rub the surface strongly with metal utensils such as knives, as this may leave metal marks on the tableware.
- **Prevent Stains and Odors:** The surface has a fine "Matte" texture and differs from regular transparent glaze, so food residue or odors may remain. Clean promptly after use and wash thoroughly for best results.

ORIGGI

ORIGGI
COLLECTION

ORIGGI is a series of stylish plate that utilize the effect of color variation during firing.

You will receive a strong impression from the coloring based on the elements which constitute nature as well as the primitive feel and texture that only a firing-denaturing effect can achieve.

It is easy to coordinate with any style and enables the dramatic presentation of dishes.

- **Avoid Metal Marks:** Do not rub the surface strongly with metal utensils such as knives, as this may leave metal marks on the tableware.
- **Prevent Stains and Odors:** The surface has a fine "Matte" texture and differs from regular transparent glaze, so food residue or odors may remain. Clean promptly after use and wash thoroughly for best results.
- **Color and Texture Variations:** This product uses a "reactive glaze", so each piece will have a unique appearance and may differ slightly in color and texture.
