Novelties 2020

Cultery is the essence of DEGRENNÉ since 1948. We are the proud partners of homes and professionals since then, and are always willing to create, seduce and delight.

With the ONDE collection, DEGRENNÉ is playing on the curves to reveal some generosity and elegance that will enhance every gastronomic moment. The classic « drop shape » is given a timeless twist thanks to its simplicity and sobriety.

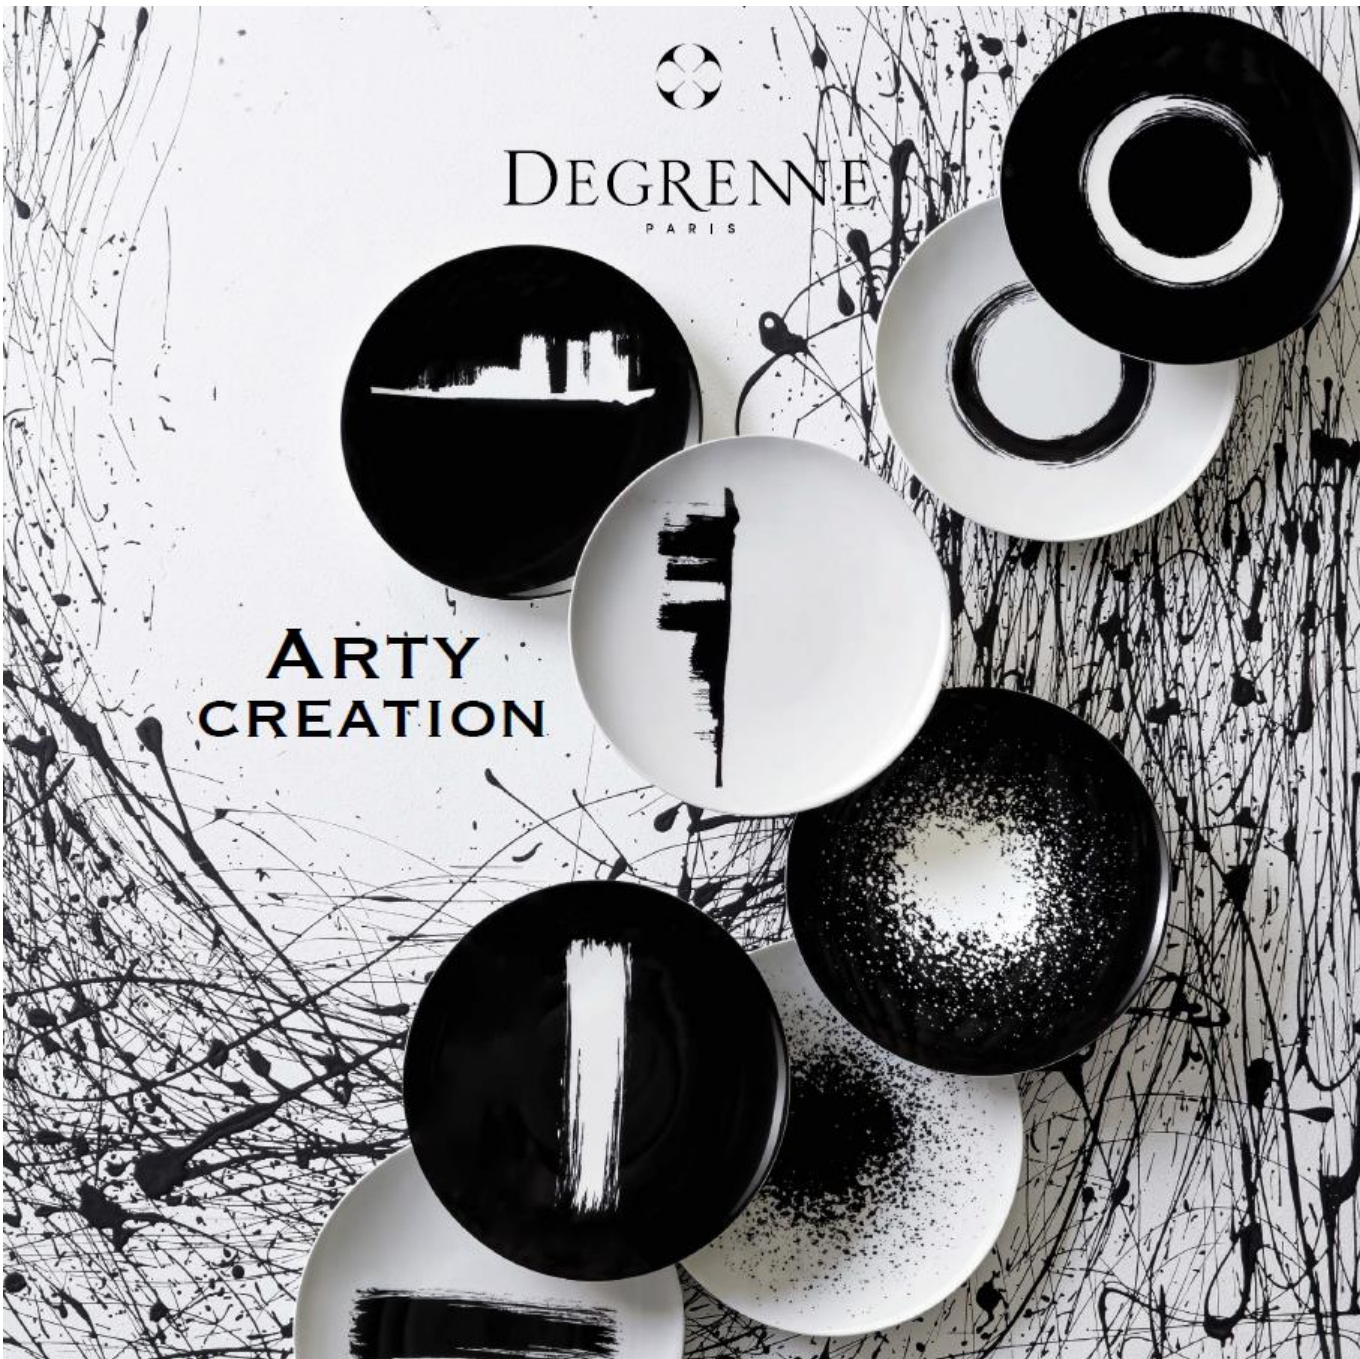

The wide range of the collection makes it the perfect proposition for any universe: from banquetting to gastronomic restaurants. DEGRENNÉ uses only the best materials to ensure durability: 18-10 stainless steel and 13-0 stainless steel for the knives.

**THE STAINLESS STEEL BRIGHTNESS NOW EXISTS IN A GOLD SHADE,** made with the PVD technique, a special coating operation, which brings a seducing and resistant finish.

For chic ambiances and festive moments, ONDE Gold is the ideal cutlery collection: elegant to magnify gastronomic occasions.

For many years, Chefs have been pushing the limits of creativity to create great culinary emotions, from meal preparation to plating.

As a result, the diners' experience has been completely transformed.

The collection pays tribute to the Chefs who have become artists, to the delicate and precise use of their tools.

The plate becomes a canvas where brush strokes, ink stains or drippings come to life.

The strokes and effects encourage us to continue the creation and give the final touches with our inspired hands.

The dish is easily plated and the food sublimated.

The DEGRENNÉ team conceived ARTY CREATION by looking closely at chefs and their techniques.

The collection stirs the imagination with a world of possibilities: 4 designs available in black or white, go with either the total look or an eye-catching contrast.

Wake up the artist within!

# COLLECTION L COUTURE IVOIRE

With the L Couture collection, DEGRENNÉ offers a unique encounter between Limoges quality porcelain and a lace pattern inspired by haute couture.

Limoges quality porcelain is an exceptional ceramic whose prestige and reputation are universal.

Its delicacy, durability and eye-catching decorations result from a mastery of highly specialized skills and traditional expertise passed down from generation to generation.

L COUTURE stands out for the precision and lightness of its lines, testimony to the excellence of the DEGRENNÉ craftsmen.

The production of each piece in this exceptional collection requires over a week of craftsmanship.

The art of the beautiful is thus combined with the art of the good.

The art of the beautiful due to the flawless execution of this design, worthy of the greatest lace-makers.

The art of the good through the showcasing of chefs' most refined dishes with this L Couture collection.

Ivory is a warm and precious alternative to white and evokes the world-famous and elegant bone china.

Just as the L Couture motif breaks the codes of porcelain by drawing inspiration from haute couture, ivory takes us away from the classicism of white in order to reach a wider target.

COLLECTION BAHIA  
MOONSTONE

## COLLECTION BAHIA - MOONSTONE

White, timeless and unmissable, is in the spotlight at DEGRENNE.

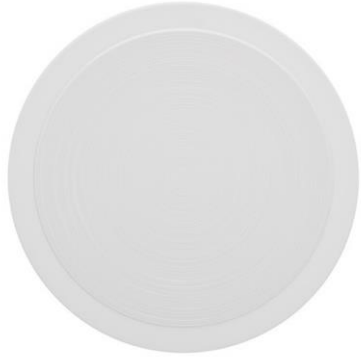

The Brand celebrates this shade and now welcomes it in a Moonstone version in the BAHIA collection.

On porcelain, this tone reveals the purity and elegance of the material by subtly revealing the relief and the matt-shiny contrast.

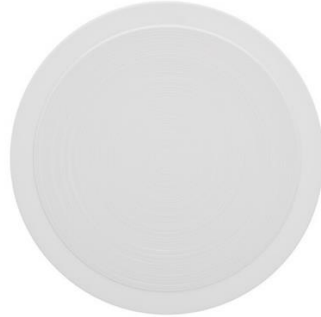

A true ode to the purity and freshness that contributes to the highlighting of all culinary creations.

Composed of a wide variety of products, from plates to coffee ware, bowls and casseroles, this collection offers a delicate backdrop for the sublimation of many dishes.

# BLUE SHADES COLLECTION

Nature is an inexhaustible source of inspiration.  
Its beauty mesmerizes.  
Its fragility overwhelms.

As our planet's symbol, the colour blue evokes infinite skies, mysterious oceans... Timeless and profound, it is a true shelter for both eye and soul. Its soothing properties invite us to contemplate and appreciate the little things in life.

A true hymn for Earth, the BLUE SHADES collection celebrates this colour in all of its complexity. Its elegant halo crowns dishes and perfects every plating.

Each piece is unique, fruit of men's work and know-how.

This artisanal gesture of pulverisation adds a captivating shading to the porcelain. Composed of plates, « cocottes » and a bowl, BLUE SHADES enables to produce many dishes and awakens creativity.

The « watercolour » plates complete the collection and offer another way of treating the blue. Like ink blending in the waves, its smoky shapes spread colour randomly on the porcelain.

Get inspired by the Big Blue.

Just like an artist in full creation, the DUNES collection draws its inspiration from nature, from its forms and its irregularities.

Like the dunes eroded by the wind, like the lava of an erupting volcano, like the foam that evolves on a wavy sea, like the clouds in the heart of a storm, the design of this collection offers delicate and moving lines.

A collection that takes its inspiration of nature and proposes delicate forms.

## REVISIT AN ICON

---

Created in 1953, Salam teapot is the iconic product of DEGRENNE. The finesse of porcelain combined with the radiance of the outer body enhances the tea experience.

With its inner lining of thin felt, **the tea inside is kept at its optimum temperature for twice as long as in a regular teapot.**

This is a clever trick to ensure that the tea is infused with all the subtlety of its flavours as the tasting progresses
