MAOTAI GLASS

JEANNIE CHO LEE

JEANNIE CHO LEE MW

My signature collection is the result of a three-year search for the most versatile, useful and beautiful wine glasses. When wine is enjoyed from a glass appropriate in shape, size and proportion for its style and quality, the wine sings in a different pitch - it becomes more refined, expressive and complex.

Three glasses are named with the perfect temperature of the wines in mind, a consideration as important as the wine glass itself. The name 8c stands for 8 degrees Celsius, the best temperature to enjoy vintage Champagne, aromatic whites and cold sake. 15c, 15 degrees Celsius, is for light to medium-bodied reds made from varieties such as Pinot Noir, Grenache or Dolcetto and are ideal for fine Burgundy. The 18c is for full-bodied reds like those from Bordeaux, Rhone, Napa, Tuscany, or South Australia. Versatility is the theme with the U1, Universal 1, and U2, Universal 2. U1 is my ideal tasting glass while U2 is my go-to glass for a wide variety of styles. If I had to choose just one glass without knowing what wines will be served, it will be the U2.

Wine is about pleasure and my hope with these mouth-blown crystal glasses from Italy is that it helps you maximise your pleasure with wine. Enjoy!

Jeannie Cho Lee

The image features a technical drawing of four different styles of crystal glasses. The drawing is rendered in a light blue, semi-transparent style, showing the outlines and facets of the glasses. Overlaid on this drawing is the text 'LEGLE CRYSTAL' in a clean, white, sans-serif font. Below the brand name, the tagline 'The Ultimate Choice' is written in a smaller, white, sans-serif font. The background is a solid, light blue color, which makes the white text stand out. The technical drawing includes various lines, arrows, and dimensions, suggesting a precise and scientific approach to glassmaking.
